

EXPANDABLE  
movable spaces

[expandable.nl](http://expandable.nl)

## We are...

A manufacturing company that designs and builds attractive **movable spaces**. All our Expandables are multifunctional, affordable, relocatable and easy to set up. Once expanded, they nearly double in size. They come in a smart design with a high-

end finish and are **customizable** to meet your own requirements. Perfect to use for a wide range of applications, from road shows and product launches to mobile broadcasts, event promotions and many more.

Once installed and extended, the volume practically **doubles** in size!

## Attractive

Based on a smartly engineered mobile concept combined with a well thought-out design, our movable spaces are unique, attractive and inviting. Much attention is paid to detail and looks.

## Expandable

You can extend the volume of your Expandable to almost twice its size in just 15 minutes by sliding both longitudinal sides 1170 mm outwards. When extended, the floor area of our largest Expandable comprises well up to 62 m<sup>2</sup>, making you feel like you are in a real 'building'.

## Customizable

Your basic Expandable comes with panels in a standard white colour framed in unfinished aluminium profiles. Fully customize the exterior of your trailer, container or hybrid to meet your brand identity requirements. And use our 3D drawings to finish and furnish the interior. You can choose from a wide range of options:

- Air conditioning/heating system
- Glass facades, aluminium windows
- Rooftop deck
- And many more...

## Affordable

Our unique Expandables are constructed almost entirely from serially manufactured components, keeping construction costs low. Thanks to our well thought-out engineering, use of normal wear and tear parts is limited. Ensuring low maintenance and a remarkably low total cost of ownership.

## Easy set up

Our goal is to develop user-friendly movable spaces. You don't have to be a technical expert to be able to operate our Expandables. Thanks to the hydraulic system and our handy wireless remote control, the movables are easily set up and ready for use within just 15 minutes.

## Delivery time

We are designing and manufacturing our Expandables based on a well thought-out concept. The efficient use of materials and systems allows us to considerably reduce manufacturing time without compromising on individual customization. Your customized movable space will be ready for use within 8 weeks.

## Movable

All our trailers, containers and hybrids are designed around expandability and movability. They are easy to relocate by normal truck. Meaning that you

can swiftly move your own uniquely customized Expandable to another location.

Our movable spaces are uniquely designed, smartly **engineered**,  
easy to set up and affordable

# Expandable Trailer

## Specifications

With a total length of 13.6 meters and a flat surface area of 62 m<sup>2</sup>, the **Expandable Trailer** type E0 makes you forget you are in a mobile space.

The E0 comes with a hydraulically extendable platform at the rear of the trailer, which is situated only 88 cm above the ground. Ensuring an easy accessible and inviting entrance. The trailer can be optionally equipped with glass side panels, possibly in combination with any doors. And offers plenty of storage space underneath the chassis.

Our Expandable Trailer can be transported to any

desired location by either a normal or a low-deck truck. And thanks to our hydraulic remote control system we guarantee an easy setup, with just the press of a button.

Expandable Trailer E0	 In	 Expanded
Flat surface area	28 m <sup>2</sup>	62 m <sup>2</sup>
Internal volume	72 m <sup>3</sup>	156 m <sup>3</sup>
Step height (outside-inside)	-	0.88 m (E0 17.5) or 1.01 m (19.5)
Empty weight	10-12 ton	-
Loading capacity*	12-15 ton	-

\* According to a specific loading schedule

# Expandable Container

## Specifications

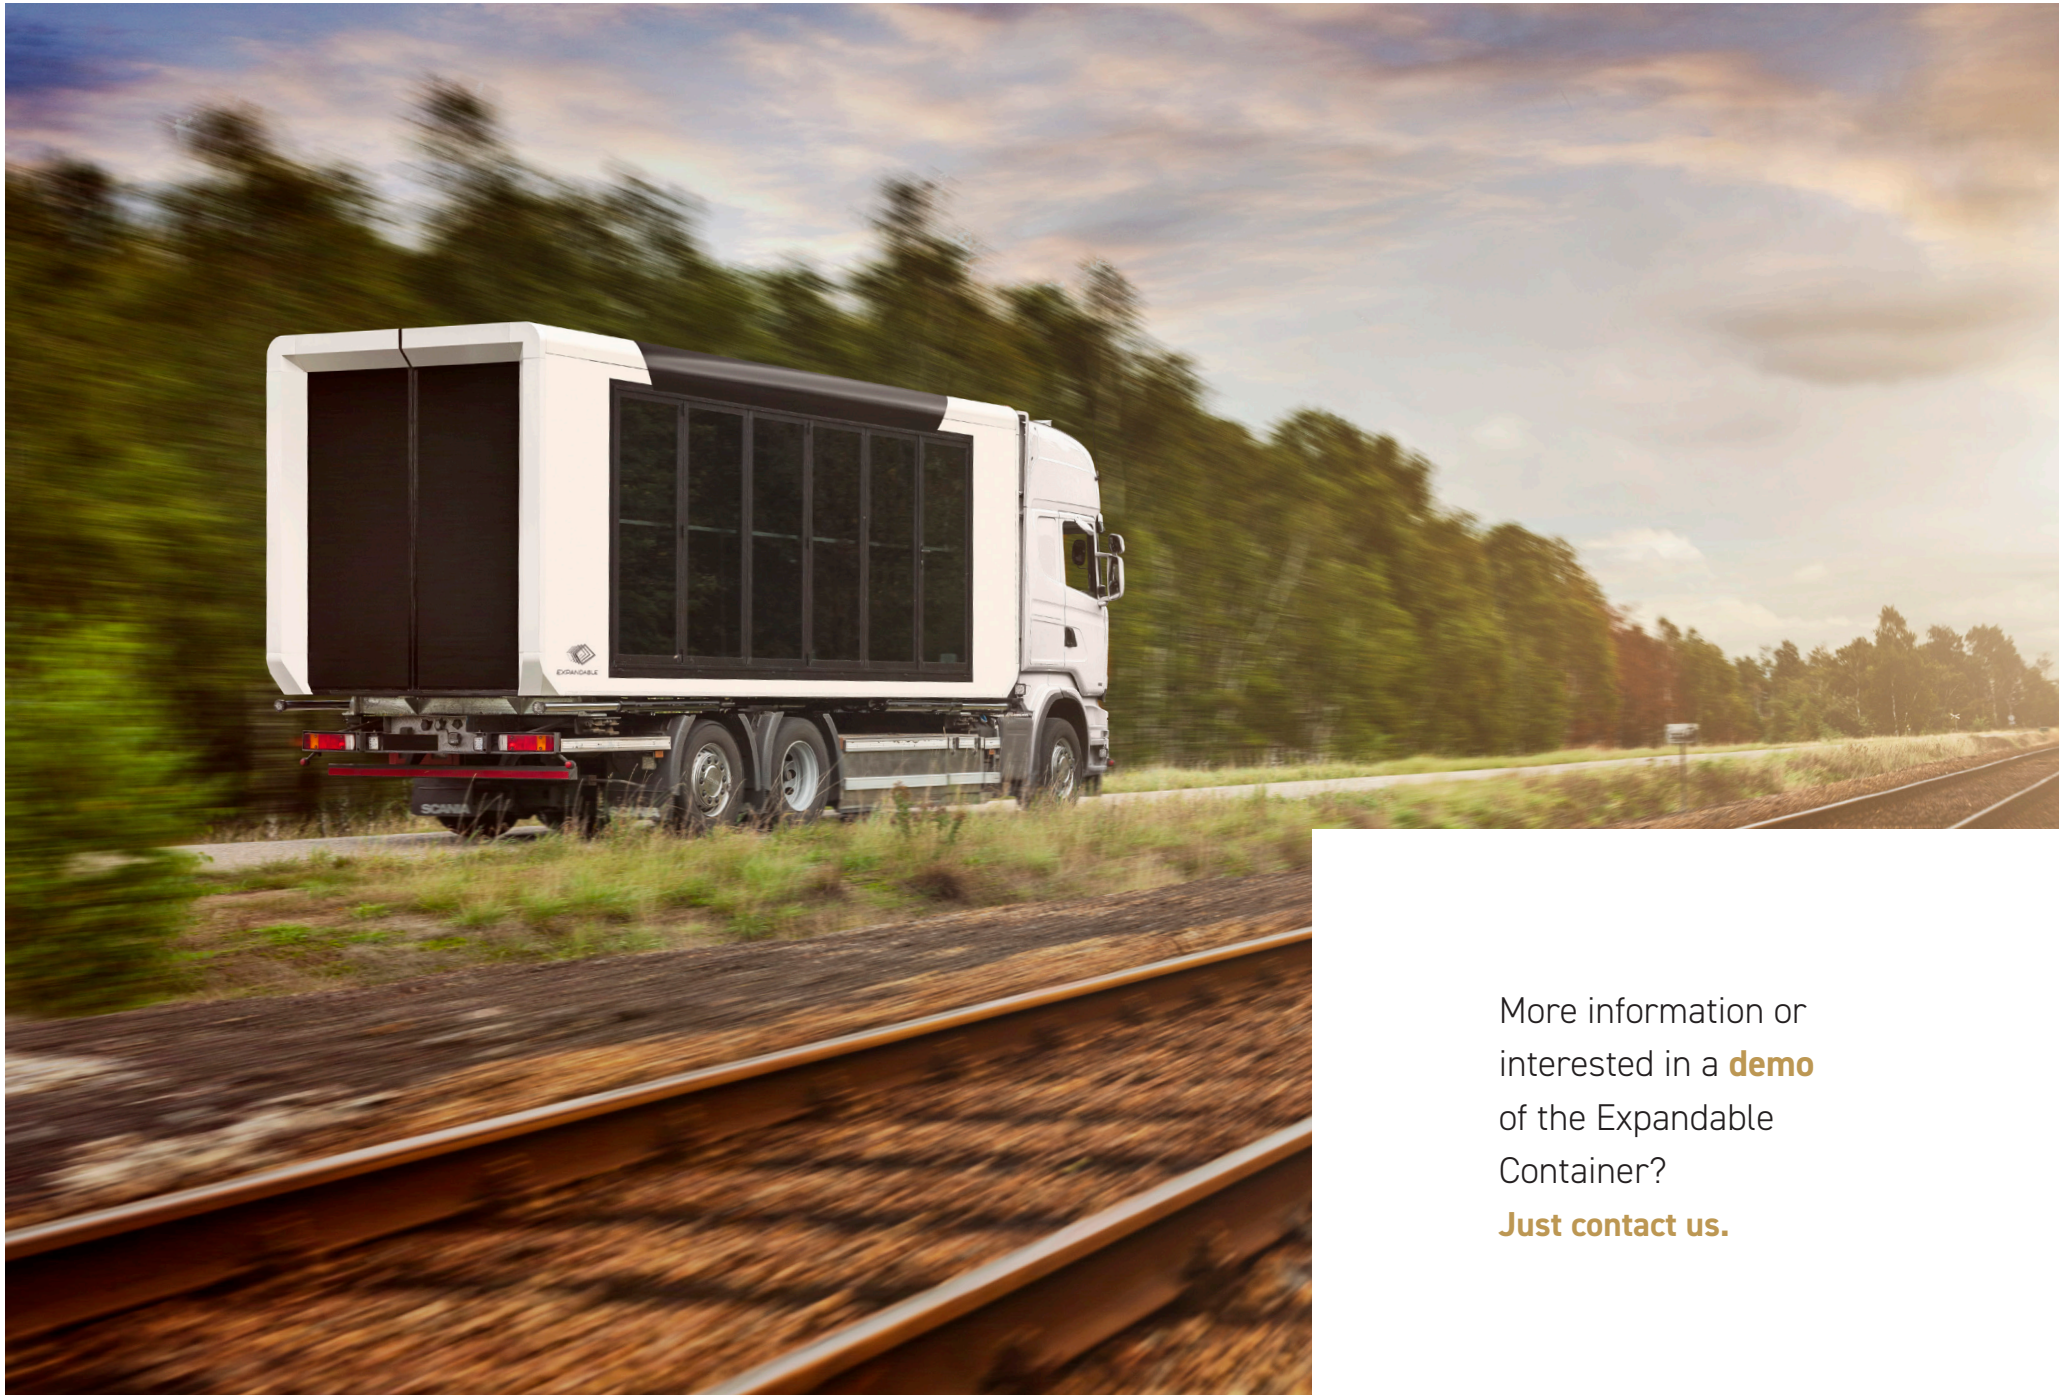

Compact during transportation, the **Expandable Container EA765** comprises a flat surface area of 32m<sup>2</sup> once extended. The chassis is equipped with four twistlocks, allowing the container to be transported easily and safely by normal truck. Upon arrival, the EA765 lowers itself to the ground by means of four wirelessly controlled hydraulic cylinders. The cylinders are placed flat on the ground, out of sight once the longitudinal sides have been extended. You can fully customize the container, both inside and out, to meet your requirements. Making the EA765 a container

that is easily deployable at any given location, whether it be an exhibition or roadshow. For example, equip the container with a glass wall and sliding doors to transform it into an attractive and representative exhibition room. With a step height of only 33 cm.

<b>Expandable Container EA765</b>	 <b>In</b>	 <b>Expanded</b>
Flat surface area	15 m <sup>2</sup>	33 m <sup>2</sup>
Internal volume	35 m <sup>3</sup>	79 m <sup>3</sup>
Step height (outside-inside)	-	0.33 m
Empty weight	5-6 ton	-
Loading capacity*	2-3 ton	-

\* According to a specific loading schedule

# Expandable Hybrid

## Specifications

The **Expandable Hybrid EOH** is especially designed for use in situations where a low step height is required. Once detached and installed, the chassis is only 35 cm off the ground. Equipped with a glass wall and sliding doors, you create a transparent and easily accessible space. The design of the hybrid is based on the Expandable Trailer E0 and comes in two versions. The Hybrid EOH-R, with a total length of 12.5 m, is especially equipped with an internal space to store the axle assembly out of sight after installation. The internal space can be

fully integrated in the interior design of the trailer. The Hybrid EOH-M has a flat surface area of 62 m<sup>2</sup> and comes with a detachable and relocatable axle assembly. Which can be easily parked next to the Expandable using a remote control.

Expandable Hybrid EOH	 R In	 R Expanded	 M In	 M Expanded
Flat surface area	23 m <sup>2</sup>	53 m <sup>2</sup>	28 m <sup>2</sup>	62 m <sup>2</sup>
Internal volume	63 m <sup>3</sup>	140 m <sup>3</sup>	72 m <sup>3</sup>	156 m <sup>3</sup>
Step height (outside-inside)	-	0.35 m	-	0.35 m
Empty weight	8-10 ton	-	12-15 ton	-
Loading capacity*	3-4 ton	-	10-13 ton	-

\* According to a specific loading schedule
